- A. The Pyramids of Egypt
- B. The hanging gardens of Babylon
- C. The statue of Zeus at Olympia
- D. The mausoleum of Halicarnassus
- E. The Apollo Belvedere in Vatican
- F. The temple of Artemis at Ephesus
- G. The Pharos of Alexandria
- H. The colossus of Rhodes

Seven Wonders of the World are works of art and architecture regarded by ancient Greek and Roman observers as the most extraordinary structures of antiquity. Only one wonder of the seven, the pyramids of Egypt, still stands today.

1. It was carved in the mid-5th century BC by the Greek sculptor Phidias. The colossal statue was the central feature of the Temple at Olympia, where the Olympic Games were held. It was considered to be Phidias's masterpiece. The seated figure of the king of the Greek gods was 12 m in height and made of ivory and gold. An earthquake probably leveled the temple in the 6th century AD, and the statue was later taken to Constantinople, where a fire destroyed it.

2. The lighthouse, built in about 280 BC during the reign of Ptolemy II, stood more than 134 m tall — about as high as a 40-storey building. A fire was kept burning at its top to welcome sailors coming to the Egyptian land. Storms and an earthquake had damaged the lighthouse by 955 AD; an earthquake completely destroyed it during the 14th century.

3. They consisted of several tiers of platform terraces built upon arches and extending to a great height. Accounts of their height range from about 24 m to a less reliable estimate of more than 90 m. Trees and colourful plants and flowers grew on the terraces, irrigated with water brought up from the Euphrates River.

4. A huge bronze statue of the Greek sun god Helios was erected in about 280 BC to guard the entrance to the harbor at Rhodes, a Greek island off the coast of Asia Minor. The statue stood about 32 m tall and according to legend, it straddled the harbor. An earthquake destroyed it in 224 BC.

5. Queen Artemisia built the tomb in memory of Mausolus, her brother and husband, in what is now southwestern Turkey. It was decorated by the leading sculptor of the age. An earthquake probably toppled the structure, and its materials were later used as building material. Only fragments remain of this tomb from which the word *mausoleum* derives.

6. They were built on the west bank of the Nile River at Giza during the 4th Dynasty (about 2575 to about 2467 BC). The oldest of the seven wonders, they are the only one remaining nearly intact today. Their white stone facing was later removed for use as building material in other places. According to the Greek historian Herodotus, ten years were required to prepare the site and 100,000 labourers worked thereafter for 20 years to complete the largest of them, which contains the king's tomb.

7. An imposing temple in honour of the goddess of the hunt was built in what is now Turkey in the 6th century BC and rebuilt after it burned in 356 BC. Archaeologists estimate that the temple measured 104 m in length and 50 m in width. Its 127 stone columns stood more than 18 m tall. The temple was destroyed by the Goths in 262 AD.

1. The introduction of wild animals to the performance dates from about 1831, when the French trainer Henri Martin performed with his lions, elephant, and other animals at the Cirque Olympique in Paris. He was soon followed by the American trainer Isaac A. Van Amburgh, reputedly the first man to stick his head into a lion's mouth, who in 1838 took his act to England and so fascinated the young Queen Victoria that she commissioned the artist Edwin Landseer to paint a portrait of the brave American with his "big cats."

It is one of the world's most prestigious dance competitions, open to both male and female dancers of all countries, and much like the Olympic Games in purpose. It was first held in Bulgaria in July 1964. The competitions were organized by the Bulgarian Ministry of Culture to sponsor a dance event of international interest, creating opportunities for dancers choreographers, directors, and teachers to demonstrate and exchange skills. Following the original competitions the next were held in 1965, 1966, 1968, and every two years thereafter.

1. Britain's worldwide influence in music in the second half of the 20th century, especially in the area of popular music, is enormous. Such groups and singers as the Beatles, the Rolling Stones, The Who, Elton John, and Sting are famous all over the world. The British people are of opinion that pop and rock music remain the most popular kinds of music in Britain, although jazz also has a large following.

2. Throughout the world the name *Shakespeare* is associated with the greatest achievements of England in the performing arts. Unfortunately, we have vague facts about Shakespeare's life. He apparently arrived in London about 1588

and by 1592 had attained success as an actor and a playwright.

3. The genre had taken a new turn with the production in 1927 of *Show Boat*; it was the first musical to provide a cohesive plot and initiate the use of music that was integral to the narrative, a practice that took hold until the 1940s. Based on a novel by Edna Ferber, the performance presented a serious drama based on American themes incorporating music that was derived from American folk melodies and spirituals.

4. “Chinese shadows”, the European version of the Chinese shadow - puppet show, was introduced in Europe in the mid-18th century by returning travelers. Soon adopted by French and English showmen, the form gained prominence in the shows of the French puppeteer Dominique S6raphin, who presented the first popular performance in Paris in 1776. In 1781 he moved his show to Versailles, where he entertained the French court, and three years later he established a highly successful puppet theatre in Paris.

5. Although stage plays have been set to music since the era of the ancient Greeks, when the dramas of Sophocles and Aeschylus were accompanied by lyres and flutes, the usually accepted date for the beginning of opera as we know it is 1600. As part of the celebration of the marriage of King Henry IV of France to the Italian aristocrat Maria de Medici, the Florentine composer Jacopo Peri produced his famous *Euridice*, generally considered to be the first opera.

1. Some countries which were not part of the British Empire are affected by the Westminster model.
2. The Westminster model may be referred to as the democratic form of governing.
3. The 18th and the beginning of the 19th centuries were marked by the Industrial revolution in Great Britain.
4. Great Britain was a pioneer in urbanization of the nation.
5. The middle class prevailed in Great Britain.
6. Queen Victoria turned the nation into the richest in the world.

The British Empire influenced a lot of countries. Even parts of the world never included in the British Empire have adopted the British system of parliamentary government, often referred to as the Westminster model. Originally a vehicle for royal authority, this system gradually evolved into a representative government and finally became a means through which democracy could be exercised. Today legislative power comes from the lower house of Parliament, known as the House of Commons. The freely elected members of the House of Commons select the nation’s chief executive, the prime minister. He or she in turn appoints members of the House of Commons to the Cabinet, a body of advisers. Because the executive is not separated from the legislature, the government is efficient as well as responsive to the electorate.

Britain was a pioneer in economic matters. The first industrial revolution occurred in Britain in the 18th and early 19th centuries and led to the development of the world’s first society dominated by a middle class. Britain was the first nation to have more than half of its population living in urban areas. Rapid economic development and worldwide trade made Britain

the richest nation in the world during the reign of Queen Victoria in the 19th century. For a long time before and after the Industrial Revolution, London was the center of world capitalism, and today is still one of the world's most important business and financial centres.

1. Students generally are required to attend lectures at Oxford.
2. At some colleges students must change clothes to dinner.
3. In a short stroll one can pass the house where Christopher Wren discovered his comet.
4. Tolkien wrote notes for the Hobbit trilogy in one of Oxford's pubs.
5. Mathematician Charles Lutwidge Dodgson wrote a children's book called *Alice's Adventures in Wonderland* in Oxford.
6. Margaret Thatcher and John Kennedy studied at Oxford.

For 800 years the University of Oxford has been polishing minds and confusing outsiders in roughly equal measure. It is a place where students generally aren't required to attend lectures, don't receive grades, seldom study anything outside their chosen subject, and take just three sets of exams during the course of their college careers — "one to get in and two to get out," as one alumnus told me.

"There are more rules and traditions than you can imagine," Owen Sheers, a cheerful but slightly shell-shocked-looking first-year student, told me toward the end of his first week in New College. "At my college you dress one way if you go to the first sitting of dinner, another way if you go to the second. It's very confusing."

A confusion of tradition is perhaps an inevitable consequence of a place so deeply steeped in history. In a short stroll you can pass the house where Edmund Hailey discovered his comet; the site of Britain's oldest public museum, the Ashmolean; the hall where architect Christopher Wren drew his first plans; the pub where J.R.R. Tolkien wrote notes for the Hobbit trilogy (it stands opposite the pub where Thomas Hardy made similar preparations for *Jude the Obscure*); the track where Roger Bannister ran the first sub-four-minute mile; the meadow where a promising young mathematician named Charles Lutwidge Dodgson refined *The Formulae of Plane Trigonometry, An Elementary Treatise on Determinants* and — oh yes — a children's trifle called *Alice's Adventures in Wonderland*.

Walk down the broad and curving High Street and you follow in the footsteps of Samuel Johnson, Adam Smith, Edward Gibbon, Jonathan Swift, Roger Bacon, Oscar Wilde, Graham Greene, T. S. Eliot, C. S. Lewis, Percy Bysshe Shelley, Indira Gandhi, Margaret Thatcher, and Bill Clinton, to name just a few who have worked and studied here.

VII. Переведите текст «Sports in Great Britain».

The British are known to be great sports-lovers, so when they are neither playing, nor watching games, they like to talk about them. Many of the games we play now have come from Britain.

One of the most British games is cricket. It is often played in schools, colleges, universities and by club teams all over the country. To many Englishmen cricket is both a game and a standard of behaviour.

But as almost everywhere else in the world, the game which attracts the greatest attention is football, or soccer. Every Saturday from late August till the beginning of May, large crowds of people support their favourite teams in football grounds. International football matches take place at Wembley.

Rugby is also very popular, but it is played mainly by amateurs. Next to football, the chief spectator sport in British life is horse-racing.

Britain is also famous for motor-car racing, dog-racing, boat-racing, and even races for donkeys. The famous boat-race between the teams of Oxford and Cambridge attracts large crowds of people.

A great number of people play and watch tennis. Tennis tournaments at Wimbledon are known all over the world.

The British also like to play golf, baseball, hockey, grass-hockey.

I live in Russia. Russia is my native country. The Russian Federation is the largest country in the world. It occupies one seventh of the Earth's surface. It is situated both in Europe and Asia. The total area is about 17 million square kilometers. The country is washed by 12 seas and 3 oceans: the Pacific, the Arctic and the Atlantic oceans. Our neighbours in the south are China, Mongolia, Korea, Kazakhstan, Georgia and Azerbaijan. In the west we have borders with Norway, Finland, Belarus and the Ukraine. There is no country in the world like Russia, with the steppes in the south, plains and forests in the midland, tundra and taiga in the north, highlands and deserts in the east. There is a great number of rivers in Russia. The Volga, the longest in Europe river, flows into the Caspian Sea. The main Siberian rivers – the Ob', the Yenisey and the Lena flow from the south to the north. The Amur in the Far East flows into the Pacific ocean.
